Profile

I'm a UX/UI Designer with nearly three years bridging education-sector digital experience and full-stack design, from Figma prototypes to live CSS/JS implementation, with AI-assisted methods built into my workflow. I handle print and digital production, campus photography and video, and the WordPress builds underneath. I'm currently located and employed on Vancouver Island, British Columbia, and am seeking an opportunity, in-person or remotely. I design intuitive digital experiences, shaped by a deep understanding of real users and a background in education.

Skills

Hard Skills

User Centered Design
User Interface Optimization
Design Thinking
Digital Marketing
Graphic Design
Photography & Videography
Print & Digital Production

Soft Skills

Interpersonal Communication
Receptiveness
Adaptability
Collaborative Problem-solving
Teamwork
Client Empathy
Can-do Attitude

Toolbox

Figma
Adobe Creative Cloud
InDesign, Illustrator, Photoshop
WordPress (Roots/Sage)
HTML/JS/CSS
Claude/ChatGPT
Google/Meta Marketing

Latest Project

Board of Governors Microsite

(WordPress, Figma, and Claude)

Independently developed and designed a web-based file repository with user-aware onboarding checklist/tracking pages and a role dependent navigation loading system.

Experience

Digital Media Specialist

March 2025–Present

Queen Margaret's School

- Led and launched the Board of Governors website with role-based navigation.
- Planned and ran successful Google/Meta marketing campaigns.
- Improved engagement by updating, repairing, and creating web-pages.
- Developed branding for Admissions print items, digital graphics, and content.
- Produced campus photography and video, and set print pieces in InDesign.

UX Designer & Web Specialist

Aug. 2023–Jan. 2025

TASIS Portugal

- Supported the Mar/Com team in all design related production.
- Designed responsive digital view books requiring new CSS and JavaScript.
- Prototyped homepage ready for web hand-off.
- Redesigned the live library page around clearer structure and scannable information.

Educational Assistant (On-Call)

Sep. 2018–2022

Sooke School District

- Supported students one-on-one and in small groups across schools on Vancouver Island.
- Built the foundation in empathy, adaptability, and communication that still shapes how I design.

Education

Interactive Media Developer Certificate

Sep. 2019–Aug. 2022

Camosun College

The IMD program combines application, game, and web development with UX/UI design and graphic design. By engaging in various projects, I learned the skills to take an idea or a problem and develop it from concept to production.

Educational Assistant & Community Support Certificate

Sep. 2017–July 2018

Vancouver Island University

Training in supporting learners with a range of needs across classroom and community settings. This certificate started my career in education and remains the reason I design by understanding people first.

Additional Training

Coursera UX/UI Design Certificates

June 2026–Present

I am currently pursuing my UX/UI Design Certificate from Google, through Coursera. I expect to finish this certificate by August 2026.

Memorise UX/UI Design Certificates

Feb. 2024–March 2026

Memorise has taught me optimal UX practices with their online courses and boot camps, allowing me to expand my skill-set and learn Figma from industry experts.

Finalsite Barcelona Web Design Training

November 2023

Learned how to differentiate from the market and develop strong brand personality, design trends/future pathways, create personalized content, and implement engagement improvement techniques.
